Instructions for using T.A.S.C.O/Rittel's Wool Degreaser

Catalog #WD-608

T.A.S.C.O/Rittel's Wool Degreaser cuts lanolin like a Knife! It's a detergent with a degreasing action that washes away the lanolin in sheep, llama and other wooly skins. Lanolin attracts dirt like a magnet. Wash away the lanolin and your woolskins will reveal their natural beautiful colors!

I've been accused of bleaching the wool in the sheepskins I've tanned, but have only washed them free of the lanolin and consequently the dirt! Once washed, your sheepskins have beautiful white wool, naturally! WD-608 is unlike other solvents you may have used in the past. Other solvents dissolve lanolin, but because the wool absorbs them, they are difficult to rinse away! WD-608 rinses away easily, no residue!

If you handle a lot of sheepskins or other similar woolskins with your hands, this is what you want to use afterwards to clean up. If you tan sheepskins, this is a product you must have. I like to wash my woolskins before I pickle them. A washing machine does an excellent job!

Formulations

For Washing sheepskin/woolskins prior to tanning – Mix 2 capfuls of WD-608 to every 1 gallon of water used.

For Cleaning up or washing your hands – Mix 1 capful of WD-608 to every 1 gallon of water used.

This is a biodegradable non-polluting product.
